

What Barbara McQuade is hiding – she CANNOT handle the December 25 bomber case.

Barbara McQuade does not have much real 'terror' experience as she claims. She built her resume using cases that are nothing like what she claims.

One of many examples: US v. Dawn Hanna.

Irrefutable facts:

Fact #1. Dawn Hanna was asked to broker (find, buy, and resell) telecom equipment by a UK citizen for Turkey

Fact #2. The UK citizen was a CIA operative working on a US mission to provide bugged telecom equipment to Iraq, although he told her it was for Turkey the whole time

Fact #3. Dawn Hanna has never traveled to Iraq, does not speak Arabic.

Barbara McQuade **withheld, hid, and sealed Fact #2** and **labeled** this case "Dawn Hanna helping Saddam Hussein get telecom equipment."

Dawn Hanna is an average middle class citizen who has lived all her life in Michigan. The case is being appealed and Barbara McQuade has had the appeal **SEALED**.

Go see for yourself: CASE # 07-20355
APPEAL CASE # 09-1425 / 09-2086

Notice suddenly after the trial, everything is **sealed** -- after the CIA operative came forward (affidavit attached).

Much of her 'experience' stems from cases *like these*. I do not believe Ms. McQuade can handle a real terror case like the December 25th bomber. She has no real experience with a case like this.
